EXPERIENCE

Zoll Medical Corporation

Senior Rails Developer
January 2017 - Current

At Zoll I am on a team using Rails 7, Hotwire and Tailwind to build a replacement for an aging Rails 3.2 app. Prior to this, I was on a team maintaining and adding features to the aforementioned Rails 3.2 app. I also perform occasional administrative tasks such as interfacing with our vendors.

Innovation Accelerator

Jr / Mid Rails Developer
January 2016 - January 2017

Worked on a Rails 4/5 app with a React front-end, implemented D3 charts for data visualizations, interviewed, hired, mentored Jr Developers.

Boston Logic

Jr Rails Developer
June 2014 - November 2015

Maintained and updated a multi-tenant Rails 4 SaaS product, added extensive API features and rspec test coverage.

Skills / Tools / Keywords

Throughout my career I have worked with Rails versions going back to Rails 3.1. I am familiar with and have worked extensively with HTML, Javascript, React, CSS frameworks such as Bootstrap, Foundation, and Tailwind, version control systems such as Subversion and Git, container systems such as Docker.

Personal / Volunteer

For the past 6 years I have volunteered with the Appalachian Mountain Club's Boston Chapter, where I perform many duties, primarily leading hikes in the White Mountains year-round. In my free time I enjoy hiking, cycling, and training for high altitude mountaineering.
