EXPERIENCE

Zoll Medical
Senior Rails Developer
January 2017 - Current

At Zoll Medical I am on a team using Rails 8, Hotwire, Stimulus, Tailwind, and ViewComponents to build a replacement for a legacy Rails 4.x app.

In my free time, I build iPhone and Android apps with the amazing new 'Hotwire Native' Ruby on Rails technology, which enables Rails Developers to create mobile app versions of their Rails web apps and release them on app stores.

Innovation Accelerator
Jr - Mid Rails Developer
January 2016 - January 2017

Worked on a Rails 4/5 app with a React front-end, implemented D3 charts for data visualizations, interviewed, hired, mentored Jr Developers.

Boston Logic
Jr Rails Developer
June 2014 - November 2015

Maintained and updated a multi-tenant Rails 4 SaaS product, added extensive features and API integrations.

Skills & Personal

------JesseWaites.com------

Throughout my career I have worked with Rails versions going back to Rails 3.1 through Rails 8. I am familiar with and have worked extensively with HTML, Hotwire, Hotwire Native, Stimulus, Javascript, Postgres, and CSS frameworks such as Bootstrap, Foundation, and Tailwind, version control systems such Git, container systems such as Docker.

I am an Ice Climber, Alpinist, and Cyclist in my free time. For volunteer work, I lead hikes and am currently the Chair of the Appalachian Mountain Club's Boston Chapter. I read often and love going on long walks and visiting new coffee shops.
